

Precesion Lead Quality

BENSONS has started its activities in the year 2013, dealing with Trading & Manufacturing of Fasteners & Engineering Product with a vision to Enterprise, which will cater to the requirement of the industries in the part of the state or country with Quality.

- To provide good Quality & Service to the customer.
- To provide Right product at Right place with Right price in Right Time.
- Its vision is to be the Manufacturing Industry Benchmark through the excellence of its People, its Innovative approach and overall conduct. Underpinning this vision is a performance culture committed to aspiration targets, safety and social responsibility, continuous improvement, openness and transparency.

TATA Welding Consumables: Quality manufacturer of a wide range of steel products, ISWPL forayed into the field of welding products in the year 2010 with the launch of the welding electrodes business. This was later expanded further with the addition of MIG wires in 2013. Marketed under the brand name 'SPARK', these products are manufactured in compliance with the AWS and BIS standards (or as per the specific requirements of DIN/BS standards) to meet the exact needs of our customers. A wealth of expertise coupled with extensive experience and the latest technology ensures the maintenance of the highest quality of products. Our products enjoy the advantage of approval of various national as well as international agencies namely, IRS, IBR, BIS, BHEL, TREATS, NML, etc.

TVS High Tensile Fasteners: Sundram Fasteners Limited is a part of the US \$5 billion TVS Group headquartered in Chennai India. The Company has established a track record of leadership over 40 years. With a diversified product line world-class facilities in 4 countries and motivated team of talented people Sundram Fasteners has become a supplier of choice to leading customers in the automotive and industrial segments worldwide.. Over the years the Company has acquired cutting-edge technological competencies in forging metal forming close-tolerance machining heat treatment surface finishing and assembly. Manufacturing locations are supported by engineering and design personnel working on new product design and development. Understanding the global nature of business and the need to provide quality products on just in time basis to customers the company has established supply chain logistics networks spanning several continents. At Sundram Fasteners growth is a natural outcome of total adherence to three core operating principles: customer orientation total

UPS High Tensile Fasteners: Universal Precision Screws is a leading manufacturer of top quality Industrial and commercial fasteners with track records parallel to none in the region. As a customer caring organization, we understand current business climate and ever changing market demands high precision, speed and efficient delivery system. Our unique business model, varied product line, large network of regional offices and strong local relationship with our customer ensures we meet and exceed the expectation of our valued customer in real-time system.

Agarwal Stainless Steel Fasteners: Initiated in 1974, the company has not just lived-up to its vision but also become a force to reckon with in the business. Today, APL® is capable of not just producing even large batches of standard as well as non-standard 304 & 316 SS, tailor made fasteners; but also specializes in manufacturing critical fasteners. Further, it has its pulse on the technological up-gradations and innovations of its upcoming projects. Hence APL® is able to cater to its customer's emerging needs.

VIRGO PLUS

Virgo Plus Welding Equipment: Virgo Plus Started its Inception in the Year 2004 with Power Tool Product Later on they have added with complete Solution for Welding with Welding Machines, Cutting Solution etc. With its Main Office based in Hyderabad with Sales and Service in many Parts of India. It has added all its Product development with latest Technology in the Field of Welding & Cutting.

Jhalani Tools: Jhalani collaborated with Gedore Germany in 1960 to manufacture hand-tools in India. Over a period of time, Jhalani went on to become the largest manufacturer of flat wrenches in the world. With a workforce over 7000 persons strong & were exporting hand tools to over 80 countries. The company manufactures a wide variety of mechanical hand tools under its facility. The company has only one aim - to serve the people and fulfil all their requirements related to this field. And that's why everyone working in the company puts his best foot forward while working so that he can feel proud of his work and that of his company.

Stanley Safety Products: provides solutions to Industrial establishments in dealing with the requirements of work place hazards that are generated by industrial machinery and environment around it. Our core business has long been the distribution and Manufacturing of safety products and signages. Today, we're increasingly focused on the rising demand for safety services. The requirement to assess the likelihood of an injury in the work place can be a very complex task even though there are volumes of safety standards available. If your facility wants to have the resources that are required to fully understand.
